Phyllis Bennis of the Institute for Policy Studies will conduct a video forum in Portland including a question and answer period. Appearing via the internet from the east coast, the renowned analyst will focus on the US War on ISIS (/Islamic State), the debate over the Authorization for Use of Military Force, and the effects on the people of Iraq and Syria of the US-led war-- in which Iran is playing a key role. Bennis has been an advocate for diplomatic solutions in light of the ongoing state of war the US has been in at least since the invasion of Afghanistan in 2001. Bennis will also give brief updates on Israel/Palestine and what's going on in Yemen.
